Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Investment and Administrative Committee of The Walt Disney Company Sponsored Qualified Benefit Plans and Key Employees Deferred Compensation and Retirement Plan and Participants of Disney Salaried Pension Plan D

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Disney Salaried Pension Plan D, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, the statements of accumulated plan benefits as of December 31, 2022 and 2021, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Disney Salaried Pension Plan D's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Disney Salaried Pension Plan D and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Disney Salaried Pension Plan D's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Disney Salaried Pension Plan D's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Disney Salaried Pension Plan D's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

DISNEY SALARIED PENSION PLAN D NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Disney Salaried Pension Plan D (“the Plan”) provides only general information. Participants should refer to the Summary Plan Description, Plan Document or Trust Agreement for specific Plan provisions.

General

The Plan is a noncontributory defined benefit plan to provide retirement, disability and postretirement health care benefits for eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Administration

The Plan is administered by the Investment and Administrative Committee of The Walt Disney Company Sponsored Qualified Benefit Plans and Key Employees’ Deferred Compensation and Retirement Plan (the “Committee” or “Plan Administrator”). Plan assets are held by State Street Bank & Trust Company (“State Street” or the “Trustee”) and are under the overall direction of the Committee. Administrative expenses of the Plan are paid from the assets of the Plan, unless TWDC Enterprises 18 Corp. (the “Company”), at its discretion, pays such expenses.

Trust

The net assets of the Plan are included in The Walt Disney Company Retirement Plan Master Trust (the “Master Trust”). The Master Trust includes the net assets of five pension plans and three medical benefit accounts sponsored by The Walt Disney Company (“Disney”).

Each plan has an undivided interest in the net assets of the Master Trust (Note 7).

Income Tax Status

The Master Trust was established to hold the Plan’s cash and investments and is qualified pursuant to Section 501(a) of the Internal Revenue Code (the “Code”). Accordingly, the Master Trust’s net investment income is exempt from income taxes. On September 22, 2017, the Company received a favorable determination letter from the Internal Revenue Service (“IRS”) stating that the Plan is qualified under Section 401(a) of the Code. The Plan has been amended since the September 22, 2017 favorable determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Generally accepted accounting principles in the United States (“U.S. GAAP”) require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits in progress.

Participation

The Plan covers most domestic salaried employees of the Company and its subsidiaries hired prior to January 2012.

Benefits

Benefits are determined by a salary-related benefit formula based on average monthly compensation and years of benefit service. The Plan provides monthly retirement income at age 65 and reduced benefits for early retirement, as early as age 55, after completing three years of vesting service. Terminated vested participants with a present value benefit equal to or less than \$100,000 can elect a single lump sum payment.

DISNEY SALARIED PENSION PLAN D
NOTES TO FINANCIAL STATEMENTS
(continued)

Plan Termination

The Company anticipates that the Plan will continue without interruption but reserves the right to discontinue the Plan at any time. In the event the Plan is discontinued, the net assets of the Plan would be allocated among the participants and beneficiaries of the Plan in the order provided for by Section 4044 of ERISA. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the "PBGC") at that time. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the adequacy, at that time, of the Plan's net assets and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Party-In-Interest Transactions

Under ERISA rules, transactions with related parties of the Plan such as a sponsor, administrator, trustee or participant (Parties-in-Interest) are considered either exempt or non-exempt from ERISA prohibited transaction provisions. Non-exempt transactions are subject to penalty taxes.

The Plan had the following exempt party-in-interest transactions:

- State Street, which is the Trustee of the Plan, manages certain Plan investments.
- The Master Trust invests in the common stock of Disney, of which 2,902,379 shares and 2,891,494 shares were held at December 31, 2022 and 2021 (valued at \$252,158,688 and \$447,863,506), respectively.
- The Company paid certain administrative expenses on behalf of the Plan totaling \$1,496,025 during the year ended December 31, 2022. In addition, the Plan incurred administrative expenses of \$159,925 for the year ended December 31, 2022, which were paid by the Company in 2023.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, the actuarial present value of accumulated plan benefits and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts in the Statement of Changes in Net Assets Available for Benefits and the Statement of Changes in Accumulated Plan Benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Master Trust holds investments that are exposed to various risks such as interest rate, market, foreign currency and credit. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the level of these risks will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The Master Trust invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income (loss) of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on estimates and assumptions related to interest rates, inflation rates and employee demographics, all of which are

DISNEY SALARIED PENSION PLAN D
NOTES TO FINANCIAL STATEMENTS
(continued)

subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Income Recognition

The Statement of Changes in Net Assets Available for Benefits presents the Plan's share of the Master Trust's net income (loss), which includes interest, dividends, realized gains or losses, the unrealized appreciation or depreciation of investments included in the Master Trust, investment management expenses and administrative expenses allocable to the plans (Note 7). Interest income is recorded on the accrual basis. Dividends are recorded on ex-dividend dates. Net appreciation / depreciation includes unrealized and realized gains and losses on investments. Realized gains and losses are determined based on the trade date of the underlying purchases and sales.

Investments at Fair Value

The value of the Plan's undivided interest in the Master Trust is based on the Plan's share of the fair value of the Master Trust's net assets at the beginning of the year plus contributions and allocated net investment income (loss) less benefit payments and allocated administrative expenses.

Benefit Payments and Prepaid Benefits

Master Trust assets used to fund benefit payments that will occur in the following month are first removed from the Master Trust and are recorded as prepaid benefits. Benefit payments are recorded as a reduction in net assets available for benefits when paid to the participants.

At December 31, 2022 and 2021, the Plan had benefit liabilities of \$1,874,248 and \$1,567,876, respectively. These amounts are not recorded as benefit payments in the Statement of Changes in Net Assets Available for Benefits but are reflected as liabilities in the Form 5500 (See Note 8).

Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of PBGC fees, trustee fees and actuarial fees. These expenses are reported on the Statement of Changes in Net Assets Available for Benefits as administrative expenses. Administrative and investment management expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment income or loss from the Master Trust. Certain administrative expenses are paid by the Company on behalf of the Plan.

Derivative Financial Instruments

Assets of the Master Trust include derivative financial instruments, which are used to maximize investment returns or minimize risks. These instruments include, but are not limited to, options, forwards and futures related to investments in both U.S. and foreign financial markets. The fair value of derivative financial instruments held by the Master Trust was a net asset of \$11,621,779 and a net asset of \$9,988,136 at December 31, 2022 and 2021, respectively. Derivative financial instruments were reported at their gross fair values on the Statements of Net Assets of the Master Trust. The gross notional amount of derivatives at December 31, 2022 and 2021 was \$5,328,045,114 and \$5,658,219,941, respectively. The gross notional amount of derivatives at December 31, 2022 comprised of \$3,583,665,740 in the asset position and \$1,744,379,374 in the liability position. The gross notional amount of derivatives at December 31, 2021 comprised of \$4,605,875,006 in the asset position and \$1,052,344,935 in the liability position. At December 31, 2022 and 2021, the amount of cash collateral posted by the Master Trust against certain of these derivatives was not material.

The Master Trust is exposed to credit loss in the event of counterparty nonperformance related to derivative financial instruments. Based on the fair value of the investment in these derivatives with any one counterparty, the risk of loss to the Master Trust as of December 31, 2022 and 2021 in the event of nonperformance by a counterparty was not material.

DISNEY SALARIED PENSION PLAN D
NOTES TO FINANCIAL STATEMENTS
(continued)

3. Funding Policy

The Plan is funded by employer contributions. It is the policy of the Company to fund the Plan and the related medical benefit account in compliance with the minimum funding requirements of ERISA as calculated by the Plan's actuary; however, at times the Company may fund additional amounts.

4. Accumulated Plan Benefits

Accumulated plan benefits are the aggregate projected future periodic payments, including lump-sum distributions, as determined by the Plan's actuary that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary as of December 31, 2022 and 2021, and is the amount that results from adjusting the accumulated plan benefits to reflect the time value of money.

The key assumptions used in the actuarial valuation as of December 31, 2022 are as follows:

Mortality – Healthy	Pri-2012 sex-distinct, separate employee and retiree tables with contingent survivor adjustments for existing survivors and white collar adjustments applied, and projected generationally from that time with a modified version of the MP-2021 scale with an ultimate rate of 1.20% at age 64, grading down to 0% at age 115 in a straight line (MMP-2021)
Mortality – Disabled	2015 Select and Ultimate Pension Disability Mortality Table for males and females
Interest Rate	7.00% per annum
Turnover	Varies by service and age
Retirement Age	From age 55 to age 70
Disability	1985 Pension Disability Table Class 1
Pre-retirement Spouse's Benefit	100% of participants are assumed to be married. Females are assumed to be three years older than males

The foregoing actuarial assumptions are based on continuation of the Plan. In the event of Plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The assumptions in the table above are consistent from 2021 to 2022.

Changes in certain assumptions used to calculate optional forms of benefit payments, including lump sum payments, increased the actuarial present value of accumulated plan benefits by \$3,843,137.

5. 401(h) Account

The Plan includes a medical-benefit component, which funds a portion of the postretirement obligations for qualified employees and their beneficiaries. This medical-benefit component is a separate health and welfare plan in accordance with Section 401(h) of the Code (“401(h) Account”). Participants hired before January 1994 that have at least 20 credited years of service and 30,000 credited hours and work for the Company until at least age 55 (or in some cases, age 50) are eligible for postretirement medical benefits. The postretirement medical benefit is not available for employees hired on or after January 1994.

A separate account has been established in the Master Trust for the net assets related to the 401(h) Account. In accordance with Section 401(h) of the Code, the Plan’s investments in the 401(h) Account may not be used for, or diverted to, any purpose other than providing health benefits for qualified employees and their beneficiaries. The related obligations for health benefits are not included in the Plan’s obligations in the statements of accumulated plan benefits, but rather are the obligations of the health and welfare plan. Plan participants do not contribute to the 401(h) Account. The Company’s contributions to the 401(h) Account are determined annually.

At December 31, 2022 and 2021, 401(h) contributions receivable from the Company of \$0 and \$26,651,890, respectively, have been included in the net assets of the 401(h) Account in the Statements of Net Assets Available for Benefits.

6. Certified Financial Data

The Trustee holds all of the Plan’s assets and executes all investment transactions and disbursements based upon instructions from the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that the investment information provided to the Plan Administrator by the Trustee is complete and accurate. The Master Trust investment holdings, income (loss) and valuation information included in the accompanying financial statements and in the following notes to the financial statements has been prepared from the data certified by the Trustee:

- Note 1 - Party-In-Interest Transactions;
- Note 2 - Derivative Financial Instruments; and
- Notes 7 and 9

The fair value level classifications, as more fully described in Note 9, are not obtained from data certified by the Trustee but are recommended by the Trustee and approved by the Plan Administrator.

7. The Walt Disney Company Retirement Plan Master Trust

Allocation of the Master Trust Assets

The net assets available for benefits of the individual plans in the Master Trust and the allocation of income and expenses are determined by the Trustee. The net assets available for benefits are increased by employer contributions received by the Master Trust and reduced by benefit payments and administrative expenses paid that are specifically identifiable to the individual plan. In addition, net assets available for benefits are increased (decreased) by investment income (loss) and reduced by administrative and investment management expenses allocated from the Master Trust to each plan. Investment income (loss) and administrative and investment management expenses are allocated at the end of each month to the various plans based on their relative share of the Master Trust assets.

Securities Lending

The Master Trust participates in a securities lending program. The statements of net assets of the Master Trust reflects as an asset the fair value of cash collateral received under the securities lending arrangement with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower.

State Street is the Master Trust's securities lending agent and, on behalf of the Master Trust, receives cash or other collateral including securities issued or guaranteed by the United States government equal to at least 100% of the market value of the loaned securities. On a daily basis, collateral is paid to or received from the borrower to maintain a collateral fair value of at least 100% of the fair value of the loaned securities. Each securities lending transaction can be canceled at any time by the Master Trust or the borrower upon notice. State Street indemnifies the Master Trust against a collateral shortfall due to a borrower default. This would cover events where the value of the collateral held is less than the value needed to purchase replacement securities in the Master Trust. To date, there have been no borrower defaults.

Cash and non-cash collateral of \$53,477,257 and \$42,657,966, respectively, was received by State Street on behalf of the Master Trust for securities on loan at December 31, 2022. Cash and non-cash collateral of \$69,100,755 and \$111,647,549, respectively, was received by State Street on behalf of the Master Trust for securities on loan at December 31, 2021. Cash collateral is invested in a money market fund. Non-cash collateral consists primarily of government and federal agency bonds and is held by State Street on behalf of the Master Trust. Investment income from securities lending was \$1,031,977 for the year ended December 31, 2022 and is included in "Other investment income".

The Master Trust maintains ownership of securities loaned and, accordingly, classifies loaned securities as investments.

9. Fair Value Measurement

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants and is generally classified in one of the following categories of the fair value hierarchy:

- Level 1 – Quoted prices for identical instruments in active markets
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable in active markets

Investments that are valued using the net asset value (“NAV”) per share practical expedient are not classified in the fair value hierarchy. NAV per share is determined based on the fair value using the underlying assets divided by the number of units outstanding.

The following is a description of the valuation methodologies used for assets reported at fair value. State Street provides recommendations of valuation methodologies, which are approved by the Plan Administrator. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Level 1 investments are valued based on reported market prices on the last trading day of the year. Investments in common and preferred stocks and mutual funds are valued based on the securities exchange-listed price or a broker’s quote in an active market. Investments in U.S. Treasury securities are valued based on a broker’s quote in an active market.

Level 2 investments in government and federal agency bonds and notes (excluding U.S. Treasury securities), corporate bonds and mortgage-backed and asset-backed securities are valued using a broker’s quote in a non-active market or an evaluated price based on a compilation of reported market information, such as benchmark yield curves, credit spreads and estimated default rates. Derivative financial instruments are valued based on models that incorporate observable inputs for the underlying securities, such as interest rates or foreign currency exchange rates.

Transfers Between Levels

Changes in economic conditions or in the use and type of model-based valuation methodologies may require the transfer of financial instruments from one fair value level to another. There were no material transfers between Levels 1, 2 and 3 for the years ended December 31, 2022 or December 31, 2021.

Alternative Investments

Alternative investments consist of funds with the following strategies:

- Diversified – Multi-strategy private investment funds and hedge funds
- Distressed – Private funds consisting of distressed debt
- Private Equity – Private equity funds
- Venture Capital – Venture capital private equity investment funds
- Real Estate – Private real estate funds
- Commodities – Primarily through an index-based fund

The Master Trust holds alternative investments, which generally offer no redemption rights to investors and for which the return of capital is determined by the investment manager or general partner according to the terms of the investment agreements. The investments generally have initial terms of eight to ten years, subject to extensions of up to two years at the option of the investment manager or general partner. At times, the investment manager may request longer extensions.

NOTES TO FINANCIAL STATEMENTS

Common Collective Funds

Common collective funds held by the Master Trust generally hold public equity and fixed income assets and allow for redemption terms ranging from one month to five years. Additionally, the investments may have an initial lock-up period, which is then followed by quarterly liquidity allowances.

Money Market Funds

Money market funds are invested in short-term debt securities, primarily U.S. Treasury bills, commercial deposits and commercial paper.

Uncalled Capital Commitments

The Master Trust includes interests in investments, which have rights to make capital calls to the investors. In such cases, the Master Trust would be contractually obligated to make a cash contribution at the time of a capital call. Capital calls are generally funded by proceeds from sales of or income generated by other investments in the Master Trust.

The following table shows the uncalled capital commitments as of December 31, 2022, by alternative investment category:

Distressed	\$ 155,557,563

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial assumptions for January 1, 2022 funding valuation

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	Nonstabilized
• First 5 years	4.75%	0.88%
• Next 15 years	5.18%	2.61%
• Over 20 years	5.92%	3.27%
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the Society of Actuaries (SOA) RP-2006 mortality tables and the MP-2020 improvement scale.	
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995.	
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates and pre-commencement mortality rather than 417(e) rates and current year 417(e) unisex mortality. However, unisex 417(e) mortality is used after retirement.	
Other economic assumptions		
• Salary increases	See table of sample rates. For 2022, the salary increase rate was applied to an adjusted 2021 base pay rather than actual 2021 base pay for some actives. For actives with 2021 hours decrease of 10% or more from the average of 2018 and 2019 hours, an adjusted 2021 base pay was calculated by increasing actual 2021 base pay by the ratio of the average of 2018 and 2019 hours vs actual 2021 hours.	
• Social Security wage base	Not applicable	
• Inflation	2.50%	
• Actuarial equivalence for optional forms of payment	417(e) interest rates and mortality in effect for the 2022 plan year (September 2021), projected to the year of payment with implied future spot rates.	
• Expected investment return	7.25% per year for 2020 and 7.00% per year for 2021, not to exceed third segment rate for applicable plan year.	
• Expenses	\$4,701,000 added to current year normal cost.	

Rationale for economic assumptions

- Discount rate – Prescribed by the IRS
- Mortality – Prescribed by the IRS

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- 417(e) lump sums – Prescribed by the IRS
- Actuarial Equivalence – Actuarial equivalence assumptions are defined by the Plan, which are the same as the 417(e) assumptions updated annually. The valuation assumptions include projection of implied future spot rates and mortality.
- Salary Scale - The salary scale rates were developed based on an experience study undertaken in 2018, which considered historical experience and future expectations. This assumption is reviewed annually for reasonableness. The effective salary scale for 2022 only was updated to better reflect expected experience for the coming year.
- Inflation - This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Market Outlook.
- Expected return on assets – The expected rate of return on plan assets is based on an average of the hypothetical past performance, adjusted for current market conditions, and future performance of the plan’s target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Prior year actual administrative expenses (excluding PBGC premiums), plus expected current plan year PBGC premiums, rounded up to the next \$1,000.

Rationale for demographic assumptions

- **Withdrawal** – The withdrawal rates were developed based on an experience study undertaken in 2018, which considered historical experience and future expectations. This assumption is reviewed annually for reasonableness.
- **Disability incidence** – The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates because the plan’s disability requirements are the same as Social Security Disability, which was the basis of the 1985 study.
- **Retirement rates** – The retirement rates were developed based on an experience study undertaken in 2018, which considered historical experience and future expectations. This assumption is reviewed annually for reasonableness.
- **Benefit commencement ages** – The commencement ages were developed based on an experience study undertaken in 2018, which considered historical experience and future expectations. This assumption is reviewed annually for reasonableness.
- **Form of payment** – The forms of payment assumptions were developed based on an experience study undertaken in 2018, which considered historical experience and future expectations. This assumption is reviewed annually for reasonableness.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator provides us with data on all employees as of the valuation date on behalf of the plan sponsor and identifies those employees who have been identified as eligible for the plan by completing the plan's eligibility requirements. Only those employees identified as eligible for the plan are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit**

Sum of Pre-2012 Service Benefit Component plus Post-2011 Service Benefit Component.

Pre-2012 Service Benefit Component

A monthly benefit equal to 1. + 2. + 3., but not greater than 4.

 1. *Flat dollar benefit (A plus B):*
 - A. \$20.00 for each of the first 10 years of credited service before January 1, 2012 plus \$21.50 for each of the next 10 years of credited service before January 1, 2012 plus \$23.50 for each of the third 10 years of credited service before January 1, 2012
 - B. If less than 30 years of credited service before January 1, 2012 and credited hours of service before January 1, 2012 exceeds 1,500 times credited years of service before January 1, 2012 plus 750, monthly benefit can be increased up to an additional \$11.75.
 2. *Pre-May 1984 service benefit:*

The sum of 1.15% of Past Service Average Monthly Compensation and 0.35% of Past Service Average Monthly Compensation greater than \$2,500 multiplied by Past Service Months divided by 12.
 3. *Formula benefit (A plus B):*
 - A. Past Service Months multiplied by 1/12 of the sum of 0.65% of Average Monthly Compensation and 0.025% of Average Monthly Compensation greater than \$2,500
 - B. Years of Benefit Service multiplied by the sum of 1.55% of Average Monthly Compensation and 0.375% of Average Monthly Compensation greater than \$2,500
 4. The normal retirement benefit defined above is reduced as necessary (but in no event less than 1. above) so that this benefit plus the accrued benefits under the Associated Plans, the Disney Associated Companies' Retirement Plan, and the Motion Picture Plan shall not exceed 60% of Average Monthly Compensation if Average Monthly Compensation is less than \$1,750, increasing to 85% of Average Monthly Compensation if it is greater than or equal to \$3,750 at a rate of 1% for every \$1,000 increase in annual compensation.

Post- 2011 Service Benefit Component

Years of Benefit Service accrued after December 31, 2011 multiplied by 1.25% of Final Average Pay.

In no event shall the normal retirement benefit from this plan be less than the participant's accrued benefit on December 31, 1993 reflecting Final Average Salary as limited under IRC 401(a)(17) at that time plus his accrued pension determined as of his normal retirement date using Years of Benefit Service and compensation earned on and after January 1, 1994. Includes benefits accrued under Fleer/Skybox International Retirement Plan and merged into Disney Salaried Pension Plan D effective July 1, 2013.

Early retirement

- **Eligibility**

Late retirement	
• Eligibility	Any participant who works beyond age 65
• Benefit	The accrued benefit is calculated based on compensation and service at actual retirement.
Deferred vested	
• Eligibility	3 years of vesting service (5 years of vesting service for a participant who does not complete at least one hour of service on or after January 1, 2012) or has attained age 65, whichever comes first.
• Benefit	Normal retirement benefit. Can elect an early retirement benefit at any time after age 55. Refer to Early Retirement provisions above.
Disability	
• Eligibility	<p>Prior to January 1, 2012: Totally and permanently disabled after attaining age 55 but prior to age 65 with 10 or more years of vesting service and eligible for Social Security Disability benefits.</p> <p>After January 1, 2012: Any eligible participant who is entitled to a disability benefit under the Social Security Act.</p>
• Benefit	Normal retirement benefit defined above commencing at age 65. Continue to earn credited service while disabled prior to January 1, 2012 at a rate of 45 hours per week and after January 1, 2012 with Years of Credited Service. Compensation during disability deemed to be at the same rate of pay in effect for the calendar month prior to disability date.

Schedule SB, Part V — Summary of Plan Provisions**Pre-retirement death**

- **Benefit**

If a participant who is vested in his accrued benefit dies

 - prior to his earliest early retirement date, the spouse will receive a benefit equal to 50% of the joint and 50% survivor option on the participant's earliest early retirement date.
 - after his earliest early retirement date, the spouse will receive a benefit equal to 50% of the joint and 50% survivor option on the first of the month following the participant's death.

Effective January 1, 2006, the beneficiary of an unmarried participant will receive the same pre-retirement death benefit as a married participant.

Form of benefits

- **Automatic form for unmarried participants** Life annuity
- **Automatic form for married participants** Reduced Joint and 50% survivor benefit actuarially equivalent to life annuity
- **Optional forms**

The optional forms of retirement benefits available are

 - life annuity
 - 10 and 20 year guaranteed life annuity
 - a joint and survivor annuity (100%, 75%, or 50% continuance)
 - Special lump sum payment option equal to the present value of the Pre-May 1984 Service Benefit, if applicable.
 - A Voluntary lump sum distribution is available when the present value of the vested accrued benefit does not exceed \$100,000.
 - Mandatory lump sum if present value of the vested accrued benefit is less than \$1,000.
- **Optional form conversion factors**

The applicable interest rate described in Code Section 417(e)(3) for the month of September preceding the valuation date and the mortality table prescribed by the Internal Revenue Service for purposes of Code Section 417(e)(3).

Miscellaneous

- **Maximum compensation** Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2022, the limit is \$305,000
- **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2022, the limit is \$245,000.
- **Other Welfare Benefits** Participants hired prior to January 1, 1994 with at least 20 years of vesting service may also be eligible for certain health, dental and/or vision benefits under the terms of the plan. Please see Disney Postretirement Health Care Plan for a more detailed explanation of these benefits.
- **QSERP Benefits** Effective September 30, 2018, non-qualified active accrued benefits as of January 1, 2018 from the Disney Key Employees Deferred Compensation and Retirement Plan will be payable from the Disney Salaried Pension Plan D.
- **Administration** A committee is responsible for the general administration and executing the provisions of the plan.
- **Funding medium** Funds of the plan held by a Trustee.

Schedule SB, Part V — Summary of Plan Provisions

-
- Benefits not included in valuation
 - Grandfathered benefit at June 30, 1992
 - Special early retirement reduction for participants who have completed at least 25 years of vesting service
 - Employee contributions under Key Plan or under an Hourly Plan prior to May 1, 1984
 - Other Welfare benefits are valued separately under IRC Section 401(h) and separate 401(h) valuation results are shown in the Appendix to this report.
 - Frozen accrued benefit under the Motion Picture Plan for Employees who transferred from the Motion Picture Plan prior to 1977.
-

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** The plan was amended effective January 1, 2021.
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including a one-time lump sum payment to reimburse them for missed payments with interest. The interest rate used is 5% as noted in the plan document.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations of the qualified plan benefits.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional Benefits Included or Excluded**

Schedule SB, Part V — Summary of Plan Provisions**• IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan Amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes since Prior Valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2021 to 2022.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- The expense component of normal cost changed from \$ 3,879,000 to \$ 4,701,000 to reflect our expectations for the current plan year.
- The interest rates used for actuarial equivalence purposes were updated to the 417(e) interest rates in effect for the 2022 plan year (September 2021), projected to the year of payment with implied future spot rates to better reflect expected experience.
- The Salary increase rate for projecting base pay from 2021 to 2022 was changed for some actives to better reflect expected experience.
