OVERVIEW SUMMARY IN SPD

- The third paragraph in the first section of the “Overview Summary” section of the SPD is hereby amended as restated in its entirety as outlined below:

Although this SPD provides essential information about your benefits, this information is intended only as a general summary of the basic terms under which benefits are provided and should be read in connection with any applicable insurance policy/evidence of coverage or benefit booklet provided by the insurers or claims administrators listed in the “Self-Insured/Insured Plans” table. Unless otherwise noted, if there is a conflict between a specific provision under the Plan Document and a benefit booklet/summary, insurance policy/evidence of coverage, or this SPD, the Plan Document controls. If the Plan Document is silent on a specific issue, then the SPD controls on that issue, except where the SPD refers to a benefit booklet/summary or insurance policy/evidence of coverage, in which case the benefit booklet/summary or insurance policy/evidence of coverage control. If both the Plan Document and SPD are silent, the terms of the applicable insurance policy/evidence of coverage or benefit booklet/summary controls. However, with respect to fully insured benefits, the terms of the certificate of insurance coverage or insurance policy/evidence of coverage control when describing specific benefits that are covered or insurance-related terms. See “Self-Insured/Insured Plans” table to determine whether a particular benefit is self-funded by the Company or fully insured by the insurer. The terms and conditions of the insurance coverage provided under the Plan, including the description of covered benefits, limitations and exclusions, coordination of benefits, subrogation, claims procedures, and pre-certification are set forth in greater detail in the insurance policies/evidence of coverage issued in connection with the Plan.
